2. The Forest Settlement Officer, Kánara, is hereby appointed, under clause (c) of the same section, to inquire into and determine the existence, nature and extent of any rights alleged to exist in favour of any person in these lands.

By order of His Excellency the Rigth Honourable the Governor in Council,

J. NUGENT,
Secretary to Government.

No. 2174 of 1885.

From

The Collector

Kanara

To

The Secretary to Government

Revenue Department

Karwar, 20th May 1885

Sir

I have the honor to forward a draft notification prepared by the Forest Demarcation & Settlement Officer, Kanara, proposing to constitute the lands specified therein in the village of Tarwada of the Ankola Taluka in this District, as Reserved Forests under section 4 of the Indian Forest Act 1878. The Forest Department propose to make a casuarina plantation in

the lands to be so notified,
and I therefore beg to recommend
that Government may be
pleased to cause the Survey
Plan in question to be notified
accordingly.

I have the honor to be,
Sir
Your most obedt Servant,

Forests. Proposal to constitute certain lands reserved —— in the Kárwár Táluk of the Kánara District.

No 5846

REVENUE DEPARTMENT.

Bombay Castle, 20th July 1885

Memorandum from the Commissioner, S D, No 1763, dated 6th July 1885—Submittin one from the Conservator of Forests, S C, together with a memorandum No. 268 dated 18th June 1885, from the Collector of Kánara, who forwards the following lett No 119, dated 17th idem, from the Forest Settlement Officer, Kánara :—

> "Herewith I have the honour to submit for your approval a draft notificatic under Section 4 of the Forest Act, of the Kárwar Táluka, and request that you wi cause it to be published in the *Government Gazette*
>
> "The draft notification in question is merely a transcript of Mr. Ebden's class fied list of the Karwár forests Mr Ebden went carefully over the forests of th taluka when he prepared his classified list and there seems no reason to suppose thi many of the survey numbers taken up by him will now have to be thrown out of fore though, as Mr Ebden has granted many privileges in reserved forests, it wi doubtless be necessary to renotify large areas under Section 28"

and recommends that the draft notification appended may be published in the *Bombi Government Gazette* with a view to the formal enquiry and settlement being effected enjoined in paragraph 7 of Government Resolution No 17, dated 3rd January 1885.

RESOLUTION.—The draft notification submitted by the Forest Settlemer Officer, Kánara, should be published in the *Bombay Government Gazette.*

2. The attention of the Forest Settlement Officer should be drawn t Government Circular No. 83, dated 6th January 1883, in which it is directe that in all draft notifications submitted to Government the correct names the villages should be entered in the Devanagari character below the Englis spelling.

Forest Settlement Officer
Kanara.

2 The Forest Settlement officer, Kánara, is hereby pointed, under clause (c) of the same section, to quire into & determine the existence, nature & extent any rights alleged to exist in favour of any per- son on these lands.

By order of His Excellency
the Right Honourable the

For publication in the Bombay

Government Gazette.

Secretary to Govt
Dept
30-7

REVENUE DEPARTMENT.

Bombay Castle, 3rd August 1885.

No. 6240.—In exercise of the power conferred by Section 4 of the Indian Forest Act, No. VII. of 1878, His Excellency the Governor in Council is pleased to declare that it is proposed to constitute the lands specified in the schedule hereto annexed Reserved Forests in the Supa Petha of the Haliyál Táluka of the Kánara District:—

Schedule referred to above.

Question regarding the adjustment of certain items of Forest Revenue

Former Papers in Comp. No. 1577 of 18

Subsequent ,, No. of 18

1273

Form No. 4.

It is requested that, in future communications, this subject, the No. and date of this letter, the distinguishing letters above the number given opposite, may be quoted, and the reply addressed to—

THE ACCOUNTANT GENERAL, BOMBAY.

No. 7 / 15682 Forest

FROM THE ACCOUNTANT GENERAL, BOMBAY

DEPARTMENT.

To

THE Secretary to Government,
Revenue Department
Bombay.

Bombay. 4th November 1886.

RECD NOV 8 1886

I have the honor to enquire whether Government Resolution No 9014 dated 18th November 1884. may not be read as cancelling the orders of 1881 (Government Resolution No 3839 dated 2nd July 1881) under which certain grazing dues in the Dharwar District are ordered to be Credited $\frac{3}{4}$ to Forest $\frac{1}{4}$ minus $\frac{1}{16}$ of $\frac{1}{4}$ to Land Revenue + $\frac{1}{16}$ of $\frac{1}{4}$ to Local funds

2— This adjustment involves the division of every rupee of Revenue in the following manner thus:—

Forest—	0 — 12 — 0
Land Revenue	0 — 3 — 9
Local Funds	0 — 0 — 3
Rupee	1 — 0 — 0

and it is impossible to so divide the Revenue item by item as it is collected

Rec 4/11/85 4053/4

either "Land Revenue" nor "Local fund receipts can be credited in the Forest accounts. In practice apparently the whole receipt is credited to "Forests" and subsequently another credit is made to Land Revenue and Local funds from the "proceeds of an unreal "refund" made by the Forest Department. Thus showing the same Revenue twice over and as expenditure money really never paid away. -

P.S. I annex in original a letter No. 2929 dated 9th September 1885 (with bill) from the Conservator of Forests, Southern Circle, for perusal of Government and the favour of early return. The whole revenue should in the opinion of this office be credited to Forests Revenue.

I have the honor to be

Sir,

Your most obedient Servant

Siddiantoo

Accountant General.

a special case under
the local circumstances. Under
the arrangement the Local Fund
was subjected to the Provincial
Revenue, while
the question dealt with in
G.R. No. 9024 of 18th June 1894
was whether the whole Provincial
Revenue or part of it was
not liable to the payment of
the Local Fund Cess just as the
Provincial Fund. While refusing
to recognise the legality of the
claim put forward on behalf of
Local Fund against Provincial
Revenue generally, Jardine
Reid defined the items of Provincial
Revenue on which the cess might
rightly be levied. In the circumstances it does not appear
that Resln 7094 of 13th June 1894
impugns the Resln 9839 of 1881
in which a special arrangement was sanctioned. The
Accountant General might

the local circumstances. Under
this arrangement the Local Fund
expressly levied on the Forest
and on Forest Revenue, while
the question dealt with in
[illegible] Sec - 9 & 24 of 1 & 2 the Vict 1878
was whether the whole Forest
Revenue or part of it was
not liable to the payment of
the Local Fund cess just as Land
Revenue was. While refusing
to recognise the legality of the
charge provided in the Bill of
Local Fund on gazetted forest
Revenue generally, Section
Rules defined the items of Forest
Revenue on which the cess might
justly be levied - In the cir-
cumstances it does not appear
that Rules 7094 of 13 the Govt Order
cancels the Rules 9839 of 1881
in which a special arrange-
ment was sanctioned - The
Accountant General might

Forests: Question regarding the adjustment of certain items of Forest Revenue in the Dhárwár District.

No. 9833.

REVENUE DEPARTMENT.

Bombay Castle, 5th December 1885.

Letter from the Accountant General, No. F—15382, dated 4th November 1885:—

"I have the honour to enquire whether Government Resolution No. 9094, dated 18th November 1884, may not be read as cancelling the orders of 1881 (Government Resolution No. 3839, dated 2nd July 1881) under which certain grazing dues in the Dhárwár District are ordered to be credited ¾ to Forest, ¼ minus $\frac{1}{16}$ of ¼ to Land Revenue, and $\frac{1}{16}$ of ¼ to Local Funds.

"2. This adjustment involves the division of every rupee of revenue in the following manner, thus:—

Forest...	Re.	0	12 0
Land Revenue	„	0	3 9
Local Funds	„	0	0 3
	Re.	1	0 0

and it is impossible to so divide the revenue item by item as it is collected as neither 'Land Revenue' nor 'Local Fund Receipts' can be credited in the Forest accounts. In practice apparently the whole receipt is credited to 'Forest' and subsequently another credit is made to Land Revenue and Local Funds from the proceeds of an unreal 'refund' made by the Forest Department, thus showing the same revenue twice over and as expenditure money really never paid away.

"3. I annex in original a letter No 2929, dated 9th September 1885 (with bill) from the Conservator of Forests, Southern Circle, for perusal of Government and the favour of early return. The whole revenue should in the opinion of this office be credited to Forest revenue."

RESOLUTION.—In Government Resolution No. 3839, dated 2nd July 1881, Government sanctioned an arrangement proposed by the Collector of Kánara and approved by the Commissioner, S. D., and the Conservator of Forests, S. C., that ¼th of the gross collections of grazing fees levied by the Forest Department on both assessed and unassessed waste land in that district should be credited to Land Revenue and that in consideration of this grant the boundary marks should be repaired by the Mámlatdár as a charge against the amount thus received by the Land Revenue Department. It was a part of the arrangement sanctioned that the one-anna Local Fund cess should be levied on the share allotted to Land Revenue out of the forest receipts in question. In that Resolution Government also approved of the suggestion that a similar arrangement might gradually be introduced into Belgaum and Dhárwár. It would appear that the arrangement thus sanctioned was a special one suited to the local circumstances. Under this arrangement the Local Fund cess is only levied on land revenue and not on forest revenue, whilst the question dealt with in Government Resolution No. 9094 of 18th November 1884 was whether the whole forest revenue or part of it was not liable to the payment of the Local Fund cess in the same way as land revenue. While refusing to recognise the legality of the claim put forward on behalf of Local Funds against forest revenues generally, Government in that Resolution defined the items of forest revenues on which the cess might justly be levied. In the circumstances it does not appear that Resolution No 9094 of 18th November 1884 cancels the Resolution No. 3839 of 1881 in which a special arrangement was sanctioned. The Accountant General should be so informed.

Under Secretary to Government.

To

The Commissioner, S. D.,
The Conservator of Forests, S. C.
The Accountant General (with the accompaniments to his letter).

F. L. Charles Esquire

Collector, Belgaum District.

To,

The Commissioner

Southern Divi

Sir,

I have the ho

to submit the report on

administration of the Bel

District

the yea

ending

Area in square miles	Population by Census of 1881
4657	10,10,610

June 1891. The District

in charge of Mr. J. Fair

Muir from the beginnin

of the year to 28th Apri

1891. Mr Muir having

to proceed on furlough, sanctioned by G. R. (Rev) No: 527 dated 22nd January 1891, I was appointed as Collector to this District (vide G. R. — Rev — No: 2396 dated 6th April 1891. I took over charge from M. Muir on 29th April last in the forenoon. Since then I have been in charge of the District.

The officers who have been at my disposal during the year under report are as shown below. The manner in which their services were utilized is shown in Appendix A.

—— Two Assistant Collec

—— The District Deputy Co

—— Surgeon Deputy Sur

—— Cantonment Magistra

I regretted extreme
the death of Rao Bahadu
Gurshidapa Virbasapa, notice
in G. R. (Rev.) No. 4019
dated 13th June 1871. It
was a personal misfortu
for myself as well a
a loss to the District
that on the death of
Rao Bahadur Gurshidapa
Virbasapa and the depa
ure of Mr. Rand, I was
the only Magistrate left
in the District with ap-
pellate powers.

The account,

in this paragraph last year, of "the persistent increase of the amount of work for disposal" holds good for 1890-91. I may here note that the establishment of nine more Municipalities in the District during the course of the year has thrown ~~and~~ additional labour on the already overworked establishment.

The Jakavi establishment sanctioned last year was entertained from 1st August 1890 as a temporary measure for one year. It gave much necessary assistance to the

Mamlatdars in disposing of the Jakavi-work more promptly than before. I shall shortly submit proposals for the continuance of the establishment in future.

3 The administration reports of the three officers in charge of talukas as forwarded separately; together with my remarks thereon.

4 II General Condition and resources.

-cribes the season and rainfall in his monthly reports. These are given at pages 598, 726, 807, 893, 1048, 1228, 1322, 1463, 259, 359 and 482 Part III Government Gazette of 1890 and 1891.

The hot-weather storms were timely; the rainfall copious; and ploughing everywhere completed in good time.

The S. W. Monsoon set in favorably. Rice was sown in good time and at first promised well. But thereafter, there was in parts insufficient rain. Good rain again

fell later on. The outturn has, on the whole, been slightly below the average of ordinary years.

The above is with reference only to the S.W. portion of the District. Elsewhere the rain was late, scanty and unequally distributed; and the Rungan outturn materially below the average — especially to the North East and East of the District.

Ariyari crops.

There was good and sufficient rain for sowing; except in the high lying lands of the Athni Tal.

to the East of the Gokak and Paraspad Talukas, where it was altogether insufficient. But thereafter there was a long break, during which the young crops suffered to a considerable extent. Eventually rain fell, but not in sufficient quantity. In the parts, specially mentioned above, the crops have been very poor and considerably below the average, elsewhere they are better, but on the whole below the average of ordinary years.

The estimated outturn in annas is given below:—

Lukas	Kungari outturn in annas				
	Rice	Jowari	Bajri	Jur	Sugar-cane
Belgaum	12	14	10	12	12
Chikodi	6	10	8		12
Athni		10	10	4	
Gokak	8	10	10	10	12
Parasgad	2	8	8	3	6
Sampgaon	16	16	16	16	16
Khanapur	11	12			12

Lukas	Kungari outturn in annas			
	Wheat	Gram	Cotton	Jowari
Belgaum	12	10	10	
Chikodi	12	12	12	
Athni	6	7	4	10
Gokak	8	8	8	8
Parasgad	10	8	8	5
Sampgaon	12	16	16	
Khanapur	16	12	12	

In the estimates given in the above return an average crop is dese

-gnated by 16 annas. Ac
ing to local practice a
average crop is generally
designated by 12 annas.

Mr. Muir states
as follows in his notes
handed over to me.

"What I wrote
"last year (para 4 adminis-
"tration report) on the subje
"of the tendency of Mamla-
"dars to underestimate the
"outturn and adhere to the
"old 12 anna average standard
"still holds good."

"In writing of
"the poor crops this year,
"on the North East and
"East of the District, I
"stated" as to
"the low anna

§10 to 545 dated
30th January 1941

"valuation, I may state
"that, in my administra-
"tion reports for the last
"two years, I drew attent
"to the fact that Mamla
"dars, with few exceptions,
"are guided still to some
"extent by the former
"(12 annas) average standa
"They do so partly from
force of habit and partl
"as this (and in some
talukas an 8 anna stande
"is still adhered to by
the village officers."

5 The rural popula-
tion, according to
the village returns
has increased abo
1·6 per cent. Last
year the increase was about ·98

June 1890	June 1891	1890 91	
		Births	Deaths
975334	992451		

the introduction of the Agricultural Department in this District the village statements are to be tested by the Circle and District Inspectors — see § 2 of Agricultural return No: 5; page 329 Symonds Manual. This test will not be finished until the end of September, so the rural population now given, is only approximate.

I have now asked[x] the Deputy Sanitary Commissioner S.R.D. to supply me with information about births and deaths during 90/91, but have not yet received them. On its receipt I shall submit a supplementary report

[x] Letter No. 2765 of 26th May 1891

6. The public health has been only fairly good. Cholera, however, prevailed throughout the District (except in Khanapur taluka) during part of the year. The outbreak reached its height in the months of August to December; when there were cases in almost all the talukas. It then disappeared in January.

Nearly 47 per cent of the cases proved fatal. There were 710 deaths out of a total of 1503 cases. The usual remedies and preventive measures were taken.

× year ending 31st March

There was too
an outbreak of small pox,
chiefly in Chikodi and
Sampgaon talukas, and
to a very little extent
in the Paraspad taluka.
There were 460 cases and
42 deaths.

Mr. Maus inspected
the Dispensaries in
the District. The amount
of relief afforded by
them and the Civil Hos-
pital is shown below —

	1889/90	90/91
Civil Hospital	1	1
Dispensaries	5	5
Indoor Patients	418	636
Outdoor Patients	1	

The increase in indoor

patients is due to the prevalence of the above mentioned epidemics.

All dispensary Committees have already adopted, in their entirety, the rules for Hospital Stoppages — G. R. (Gen) No. 1235 dated 23rd April 1887. These fees are small and as yet add but little to the revenues of the Dispensaries. They are paid by well-to-do persons, who formerly were treated and given medicine gratis. It is only just and fair that they should pay.

The realizations for the year have been as

	Rs	R	P
Chikodi	30		
Athni	41	4	
Gokak	8	6	
Saundatti	28	2	
Khanapur	27	15	
Total	135	11	

Last year they were Rs 69-14-0. The well-to-do classes do not as yet sufficiently appreciate the benefits of the scientific surgical and medical treatment. They are more willing to attend the Dispensary when they have nothing to pay than under the present rules as to fees.

Mr. Muir explained in the last year's administration report that

had been effected in this District in the matter of raising subscriptions &c in connection with the Countess of Dufferin Fund. Two women had been sent up by the District Local Board to the Hospital in Bombay and trained there as midwives and nurses. On their return to Belgaum, the Board took steps to turn to practical account the money and pains spent on their education. Unaided they were found — after some months' experience — to be able to do nothing whatever. So after a long negotiation and o

their fully agreeing to the terms, the Board granted them monthly salaries of Rs 20; posted them — one at the Belgaum Civil Hospital and the other at the Gokak Dispensary. These women were to add to their salaries by charging fees for attending at private houses. These arrangements were duly notified in the local newspapers and in other ways.

But they were never given effect to! The women, on being ordered to join their appointments in September last, disappeared.

They both at the time
(and in Mr. Muir's presence
declared themselves pleas
with the terms offered
them. The whereabouts of
both these women has
now been learnt; and
attempts have been mad
as yet without effect to
get them to comply with
the Committee's arrangeme
as stated above.

Laxmibai Karnik
— one of these women —
is at present "enceinte"
and promises to join h
appointment after recover

Mr. Muir learns
in April last from the
Father of the other woman

Jivakabai Kom Chandapa Maratha that she (Jivakabai) had obtained an appointment in the Dispensary of Palampur state and it appears her pay there is double of what she was offered here. I am therefore laying the matter for the consideration of the Board whether we can insist on Jivakabai returning in order to fulfil her agreement or whether we should sue for breach of the agreement and recovery of the sums spent on her education. She on her part complains

s kept a year without
ing provided with an
hointment. I have calle
the Committee's opinion
this subject and I
e to dispose of the
tter in a short time.

What has been
re during the year 1890
h regard to the Countes
fferin fund will appear
page 161 of the Sixth
nual Report of the
ntes of Dufferin's fund.

I am glad to
te here that the Board
now taking steps to
d another woman to
bay for medical instruction
The orders (84 of
R—Gen— No 3094 of 2nd August
1889

of Government about testing the quality of drinking waters have received attention this year too. After consulting the Deputy Sanitary Commissioner, Mr. Muir selected the following 15 villages; the waters of which it seemed desirable to have tested.

1	Mugut Khan Hubli	9	Shegehole
2	Saundatti	10	Mamdapur
3	Kittur	11	Hukeri
4	Bidi	12	Kokatnur
5	Degaon	13	Athni
6	Bagevadi	14	Shedbal
7	Konnur	15	Mangoli
8	Arbhavi-deval	Hatti	

Samples of the waters were obtained and forwarded to the Chemical Analyser in the manner

prescribed by standing
orders. This work was de
posed of personally by
each Assistant and Deputy
Collector in charge.

This matter, is
undoubtedly of great im
portance and though natives
make a great fuss about
good water it is surprising
to find how little trouble
they take to provide it, o
to prevent the existing
supply from being pollute
by bathing and washing
clothes and cattle.

The samples of
some ten villages were foun
by the Chemical Analyse
to be fairly good.

[illegible] water, readily drunk by the people of the important town of Mugat-Khan-Hubli was, on the other hand, found to be quite unfit for potable purposes. So steps are being taken to sink a well there. Again the drinking water of the village of Kokatnur, is also reported to be not a fair sample. Enquiries are now in progress to find out the causes of pollution. The results of the remaining three villages are not yet known.

The school vaccination registers, reported on last year, have been introduced

to good purpose

Leper Asylums.

As pointed out in the last year's report, the District Local Board considered the question of grant-in-aid to the Roman Catholic Chaplain for the maintenance of lepers and voted an annual grant of Rs 40 This action of the Board was sanctioned by Government in their resolution No 8310 (Rev) dated 22nd November 1890

In August 1890 sites for the new Leper Asylums were approved of. It was settled that the proposal should be widely made known in the District, a Committee appointed for

the purpose of raising funds; and that Government, too, should be applied to for a grant-in-aid

Accordingly the public meeting was held at the Municipal Hall on 26th October, Mr. Mucci occupying the Chair. A Committee of some 17 gentlemen was appointed to raise subscriptions.

The land in which the female lepers asylum was proposed to be constructed belonged to the Municipality of Belgaum, and they agreed to make a free grant of this land to the required extent (5 acres), subject

sanction which you accorded in your letter No: 590 dated 19th February 1891.

A site for the Asylum for male lepers was finally selected in Survey No: 1349 out of which three acres were granted by G. R No: 1595 dated 2nd March 1891.

The Exec.... Engineer has been asked to make out necessary plans and estimates for the building which are still awaited

Village-sanitation.

Mr Muir submitted to you his report No 1914 on 7th April last regarding the

application of the provisions
of the Bombay Village
Sanitation Act No. I of 1889.

G. R. — Jud — No: 7104
of 19th December 1890 prescribed
the half yearly report on
the village sanitation. Mr.
Kuir took steps to collect
nformation in connection
ith thes report; but later
Government ipned fresh
ders — Resolution No 3000
of 3rd June 1891 — that what
was required was some
account in the annual
Administration reports of
the manner in which the
orders on thes subject
were being carried out

on this para will show how the arrangements in connection with village sanitation are being carried out.

Prickly pear. Mr. Muir commented fully in last year's administration report on the progress, made in the matter of the systematic clearing of village sites (with a 100 yards measure all round) of prickly pear. 186 villages were shown as still to be cleared of prickly pear. The following table will show the progress made during the year under report:-

P. S. O

Taluka or Mahal	Number of village sites		
	on which prickly pear was on 1st August 90	cleared during the year 90-91	Balance
Belgaum			
Chendgad			
Chikodi	5	2	3
Ankori	55	11	44
Athni	10	6	4
Gokak	49	10	39
Paraspad	33	7	26
Murgod	17	4	13
Sampgaon	15	3	12
Khanapur	2	1	1
Total	186	44	142

In no less than

Fifty of these the over-

growth of prickly pear

within 100 yards' margin

is on Forest land. As

Mens explained in last

year's report the difficulties

in the way of disposing

of this matter.

During the
year Mr. Muir addressed
the Forest Settlement Offic
on the subject. He agree
to throw up all such lan
out of forests. He has
been taking steps accord
ingly. A report just re
ceived on the Gokak tal
from the Forest Settlement
Officer shows that the
state of things there wi
immense increase of price
pear is very serious and
eventually it will be a
case of the prickly pe
exterminating the Forest,
unless checked.

Out of these
fifty villages, the Land

at Deshnoke and Mokare (Sampgaon taluka) have been disforested by G.R. (rev) No 4561 of 6th July 1891. Steps will now be taken to clear them of prickly pear.

7 The Agricultural stock is shown in the following summary:—

Year	Cattle	Horses and Ponies	Sheep and goats	carts
89/90	5,80,965	7,694	3,10,734	29,075
90/91	5,77,248	7,496	3,05,979	29203
Increase				128
Decrease	3717	198	1755	

These figures
are only approximate.
There has been a small
decrease in the numbers
of cattle and sheep
and it is reported that
owing to scarcity of
fodder many of the
cattle were sold. The
decrease in sheep
percent; and indeed
the numbers would seem
to decrease annually
as last year also a
decrease was shown.
The other variations

numbers and there is room for doubt whether returns are true to fact.

The District Agricultural return No. 5 will be prepared in October next when the exact number of these animals is known after testing. Any abnormal variations in the stock will then be reported in a supplementary report as required by Govt Resolution – (Revenue) – No. 2258 dated 31st March 1891

The price of cattle

at Belgaum itself, on 3rd

March of each of the last

four years, has been as

follows: —

Year	Daily wage (Annas)		
	Skilled	Unskilled	Cart
87/88	14	6	14
88/89	12	6	12
89/90	12	6	11
90/91	11	4	10

Under these heads I have

little fresh to add to

what Mr. Muir wrote last

year. Those remarks apply

equally to the year under

report. The causes at work

have been the same as,

and the results similar

were of last but one year — only more marked.

Mr. Muir's remarks would no doubt explain why the cost of cart-hire has fallen owing to the Railway superseding the old methods of carriage.

But they do not appear to me altogether to explain why wages have fallen 30 percent in four years. The population has increased greatly and the last census shows over a Million, i e. 1,010,610 — as against 896000 in 1887. — so great an increase as 114,610 persons in four must I think

lower the price of labour unless there was a corresponding increase in the volume of trade. It seems to show immigration of grown up persons from elsewhere as the mere increase of births over deaths would not account for nearly the whole increase.

7 The prices of produce have, as a rule somewhat fallen. A few of the chief articles of consumption in this collectorate are noted below.—

Articles	Quantity per rupee per standard maund on 31st March			
	1890		1891	
	Seers	Tolas	Seers	Tolas
Wheat	17	20	16	
Dall	14	60	15	
Rice common	12	40	11	
Jowari	19	60	22	
Bajri	21	60	22	

a table will be found

[illegible] are the average prices, ruling in the following four principal bazars of the District: Belgaum, Nandgad, Nipani and Athni.

Wheat, Bajri, gram and dal were a little cheaper, while both sorts of rice ~~[illegible]~~ remained ~~[illegible]~~ nearly unchanged. Jowari was, in parts, a bad crop; still its price was a little ~~[illegible]~~ lower than last year, because it was largely imported by rail from other quarters The Railway thus, it will be seen, materially influenced

the prices of the year.

About monthly price-registers Mr. Muir's remarks in his last year's administration report are, generally speaking, true for this year also. I hereto attach a memo: of errors found out by Mr. Muir. The Assistant and Deputy Collectors have made the prescribed examinations of these registers.

10 The <u>takavi advances</u> granted and recovered during the year ending 30th June, are given below: —

P. S. O

Takavi advances	Balance of 1890 of former advances repayable in instalments	Advances made during the year	Instalments that fell due and recovered during the year	Amount of instalments payable subsequently to 30th June 1891
	Rs	Rs	Rs	Rs
Under the Land Improvement Loans Act XIX 1883	88,094	57,450	20,992	124,552
Under the Agriculturists Loans Act XII 1884	421	———	246	175

It is satisfactory to note that these advances are, again this year, of very considerable amount. I append another table, showing by taluka, the objects for which the years advances were granted It is further satisfactory, again this year, to note that repayments have

made up to
date; although the amoun
advanced, are large; and
the persons interested are
so many: —

Talukas	Number of persons who received advances	Objects of the advance							
		Construction and repairs of irrigation wells	Enlarging irrigation tanks	Removing tank mud and weeds	Making up bunds etc.	Levelling ground and conversion of dry crop into rice land	Purchase of cattle	Removing of brick-kiln	Total
		Rs	Rs	Rs	Rs	Rs	Rs	Rs	Rs
Belgaum	44	700	100	2,350	350	9850			13,350
Chikodi	14	2625		1450	2975				7,050
Athni	48	2550		3280	3645	225			9,700
Gokak	42	3200		8360	3140			850	15,550
Sanasgad	12		650	2400	1130			670	4,850
Sampgaon	10	900	50	425	200	1725			3,300
Khanapur	13	1250		2400					3,650
Total	183	11225	800	20665	11440	11800	—	1520	57,450

Mr. Muir states
as follows in his notes
handed over to me: —

[illegible] fully noticed
this matter in § 10 of
the last year's adminis-
tration report and § 3
of my forwarding Memo
on the Assistants' ad-
ministration reports."

"For the last four
years the yearly amount
of advances (Land Impro-
vement Acts) has averaged
Rs 34,000. This year it
is Rs 57,450 — exclusive of
the Rs 9000 for two advances,
that the Comr S. D, declined
to sanction without certain
further information, that
I have called for."

"One interesting

result of the popularity
of the system of these
advances has come to
my notice. It is an
indirect result, but likel
greatly to benefit the
borrowing public. It is
that the Savkars in plac
where considerable advantag
has been taken of these
advances, have materially
lowered their exhorbitant
rates of interest. It is
so, commonly reported. I
am doing my best to
verify what I have heard.

"This is the first
year, in which a special
establishment has been
entertained in connection

with three advances (see my letter No: 824 of 21st Febmary 1890 and G. R—rev— No 3925 of 6th June 1890)"

"I have every reason to believe that the result is altogether satisfactory — both in view of making the system more popular and materially relieving the Mamlatdars' over-worked esta blishments."

The above Govern.m Resolution sanctioned an extra establishment of three Karkuns as an ex- perimental measure for twelve months and requires a report before the expirati

of the period
results attained. This
report I have submitted
to you in my letter No.
3748 of 14th July 1891. I
have shown therein that
the arrangement has not
only afforded some relief
to the already overworked
establishment of the Ma
laldars, but the work was
performed with greater pro-
ptitude than before, and
it has also increased the
popularity of Jakavi ad-
vances to a considerable
extent.

These results are,
in my opinion, very
satisfactory. Accordingly

× Disposed of by G. R. No 4748 dated 13th August 1891 Copy pasted

I have requested you to obtain Government sanction for the continuance of this extra establishment for another year. Eventually, I think, it should be permanently sanctioned.

I have also observed that it will probably be necessary for me, after some time, to apply for one Karkun to each taluka.

11 Manufacture and trade. Mr. Muir states as below in his notes handed over to me.

"I have little or nothing to add to last

years report:

"I reported in my administration report for 1886/87 how the local manufacture were declining and the trade-routes were changing in consequences of the opening of the S. Maratha Railway. I have since then reported in each year's administration report how these changes have been growing more and more pronounced."

will be found in vol of 1892

"One local industry I may notice here. A good deal of coarse paper used formerly to be made in the District. I made a full report on the

subject in my letter No.
42 dated 7th January 1886.
Even at that time the
industry had greatly
fallen off. I explained
how and why and to
what extent. But paper
was still being made at
three villages — at Stoor,
Longnoli and Gokak. There
were nine "dangs" or hand-
-factories."

"Paper is still made
at all three villages. But
the number of "dangs" is
now only six, and these
work for but short periods
of the year. In the five
years, since I wrote the
above report, the out-turn

has necessary [illegible]
A few years now must see
the close of the industry

"Under Mr. Kerr's
supervision the Gokak Water
Power and M. Co's Mills
continue, this year too, to
be conducted in a satis-
factory manner. As regard
the contempleted extension
of the buildings &c refer
to in last year's report
I may state that since
29th October 1890 an addi
tional 250 horsepower has been
commenced to be used.

In August 1890
the Gokak Water Power and
M. Co. applied for the

land close to what is already in its possession to increase accommodation for the European employees of the Company. Mr. Nevill submitted his report on the subject in April last. By resolution No: 3608 of 26th May (Revenue) Government ~~declined~~ decided that the land applied for by the company should not be granted.

12 The only fair, worthy of mention, is held at Yellamai Hill in the Paraygad taluka It is held monthly at the full Moon. The largest gatherings

are held in Chaitra (April)
Margashirsa (December) and
Paushya (January) the
attendance this year
estimated at

37,940 in December
34,220 —— January
12,600 —— April.

There has been a large
decrease in the attendance
of pilgrims at the January
fair as compared with that
× 57730 of the corresponding
fair in the last year, and
it is reported to be due
to an unfounded rumour
that there was at the time
an outbreak of cholera and
scarcity of water at Sravan
atti and on the hill

arrangements at the time
vic Jarvey goa. and the
Commissioners show their
usual interest in the
matter.

13. As to the
Condition of the people; —
I have little to add to
what Mr Muir wrote in his
reports of the last few
years. It continues to be
distinctly prosperous.

Traffic on the
railway continues to increase
both as to passengers and
goods; and in spite of
partial failure of crops
in some parts the land
revenue was paid up promptly

III Revenue

(a) Ordinary administration.

14. The period for completing the Jamabandi Settlement was, by G. Resn (rev) No: 9190 of 23rd December 1890, extended to 15th April account of the Census operations and within that time the settlement of the whole District was ... pleted.

The Jamabandi of the two talukas, noted below was done by Mr. Mucci.

Talukas	Date of	
	commencement	completion
Chikodi	3rd December 1890 to 9th January 1891	19th December 1890 to 23rd January 1891

the Jamabandi of these talukas by the Collector on the last occasion was done in the year 86-87 (Chikodi) and 87-88 (Parasgad).

15 The results of the settlement of the Jamabandi of the District are as under: —

Year	Land revenue: Remission	Land revenue: Alienation	Land revenue: Revenue for collection	Local fund*: Revenue for collection	Interest	Total for collection
1	2	3	4	5	6	7
	Rs	Rs	Rs	Rs	Rs	Rs
89/90	29391 5 9	641229 5 6	1480128 1 3	127694 7 6	—	1607822 8
90/91	11197 3 5	626010 6 1	1527318 6 10	129918 9 11	—	1657237 —
Increase	—	—	47190 5 7	2224 2 5	—	49414 8
Decrease	18194 2 4	15218 15 5	—	—	—	—

* No remission or alienation.

This increase is mainly due ~~to~~ to increases

under are covering among other heads: —

(a) Increase of land revenue assessment consequent on the revision settlement which was gradually to be enforced.

(b) the resettlement of Judi on service lands.

(c) the formal resumption of villages assigned to the gadkaris of forts

(1) Bhimgad (Revenue service Inam) and

(2) Sargad (Police service Inam); and

(d) lapse of personal Inam villages of Gupinal and Gutti in the Gokak and Belgaum talukas respectively.

[illegible] items,
that are included in the amounts
for 90/91, entered in the
above table, are as follows:—

(col. 2) Remissions
Details of this are given
area 16 below.

(col. 3) Alienations
as follows:—

		Rs	A	P
a	Political Inams	28,212	13	—
b	Personal	2,05,473	6	2
c	Devasthan	43,872	7	2
d	Non-service Vatans	154,166	10	7
e	Service Inams			
	I Useful to Government			
	A. Revenue Vatandars	71,436	15	10
	do Non- do	21,216	—	3
	B Police Vatandars	15,590	15	—
	do non- do	69,258	8	1
	II Useful to community	16,783	10	—

The net decrease
(Rs 15,218-15-5) is mainly due

to the resumption and lap
of certain villages referre
to in the above para.

(Col. 4) The land
revenue for collection is
made up as follows:—

		Rs	A	P
a	Assessment on Govt lands	1,093,091	14	7

the sale of sand, stones &

Standing orders
require village officers to
furnish, on the occasion
the Jamabandi, lists of
the deceased occupants a
holders, whose names still

appear in the Government accounts. These orders were given effect to by Mr. Kais and the Assistants. The 1st Assistant Collector has however, omitted to allude to this matter in his administration report.×

× §6 G.R-No: 8733 dated 24th December 87

16 There are no remissions proper. The so called "remissions" were arranged for at the time of Jamabandi and are as follows: ——

— Rs 11,180-6-5. in consequence of the levy of the revised settlement rates in the Talukas of Belgaum, Chikodi, Gokak Sampgaon and Khanapur.

— Rs 16-13-0. on account

certain land taken up for the Dhupdal storage reservoir.

These are, it will be noticed merely nominal. No remission was granted to any cultivator or land holder (or indeed asked for, by any) on account of his inability, from poverty and the failure of his crop, to pay the assessment. This may be looked on as highly satisfactory.

17. The realizations of Land revenue up to 30th June and the probable state of the same at the end of the year are given

Demand			Collection up to 31st March			Balance on 1st April			Collections from 1st April to 30th June			Balance		
	Rs	As		Rs	As		Rs	As		Rs	As		Rs	As
1536852	11	—	1339533	3	2	197329	7	10	196935	15	5	393	8	5

× + Rs 92-13-9 (over collections) come to Rs 1339646-0-11 - as shown in Vasulbaki for the four months ending 31st March This overcollection has been found out lately

The balance (Rs 393-8-5) will, it is confidently expected, have been collected by the end of the month (July)

The demand (more than 15 lakhs of rupees) has thus been realized from so many different land holders and cultivators; — with, a merely nominal outstanding balance at the end of the year.

No better evidence could be wished for to demonstrate the moderation of the assessment and its suitability to the peasant-proprietor as regards its incidence and mode of collection.

18 The amount of pressure exercised to realize, as stated in § 17 above, may be inferred from the particulars given below:—

Year	Total number of occupancies	Number of notices served	Percentage of notices served to total occupancies	Penalties § 148 Land R. C.		Restraints				Re-occupancies transferred		Revenue Payers		Aggregate of rents of tenancies created	
				Number of cases	Amount due Rs.	Number of cases	Percentage to total occupancies	Amount realized Sale of Trespass Rs.	Amount realized Sale of occupancies Rs.	No:	Percentage to total occupancies	No:	Percentage of increase or decrease	No: of tenancies created	Aggregate of rents of tenancies created
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	
89/90	50039	23	.046	—	—	1	.002	—	—	—	—	66762	1.21	—	
90/91	50504	35	.069	—	—	1	0019	—	8	—	—	67482	1.08	—	
Increase	465	12	—	—	—	—	—	—	8	—	—	730	—	—	
Decrease	—	—	—	—	—	—	—	—	—	—	—	—	—	—	

Para 17 above,
shows that the demand
(more than 15½ lakhs) was
duly collected; with, in all
probability, a merely nominal
balance at the close of the
year. It appears from the
above — in further demonstra-
tion of the moderation and
suitability of the tax — that,
in collecting the revenue from
no less than 67482 different
landholders and cultivators,
only 35 notices were issued,
and only in one case,
was property attached.

This speaks well
for the District and Revenue
officers in giving effect to
the provisions of rule 87
Land Revenue Code the

village officer has fo.
to time reminded the pea
-proprietor of his liabilities
in the manner prescribed
by Government. This has
obviated the necessity for
taking compulsary measures
This is almost literally true
Out of the 35 compulsory
notices the majority were
rendered necessary by
negligence or refusal on
the part of the contractors
for tolls, ferries, opium &
to pay up in instalments
in good time.

Abkari

19. The Sadar Distillery
System has been in force
since 81/82. The contract

every time it is given for a period of three years. This (90-91) is the first year of the 4th such period. The minimum guaranteed revenue is Rs 2,90,000, the revenue for the last period being Rs 3 15115 per annum. The realizations for the year received till the end of June do not exceed this minimum amount (Rs 2,90,000).

The Toddy-tree-foot tooth and shop-license fee system was introduced from 1st August 1889. There were in 89/90, 112 shops, and the realizations were Rs 87563-54. In 90/91 there were 110 shops, the realizations up to the

end of June being Rs 97,677. The increase is, in my opinion due to the following causes:—

(a) During, as it will be seen in his last year's administration report, to the newness of the system and the fact that it was not possible in good time beforehand, to notify properly to the public the contemplated change, the revenue for the year (89-90) was less than it ought to have been.

(b) During the year under report, every effort was made to give wider publicity to the conditions of the system beforehand

(c) As a consequence of this, and of the experience gained in 89/90, people began to know the real advantages of this new system and ventured on a greater scale, to share them.

For the coming year, too, the realizations promise to exceed those of this year.

Arrangements made by Mr Hunt in the matter of supervision of the Country Spirit, Toddy, opium and other intoxicating drugs still hold good. By these arrangements* of the District, together with the Native [illegible]

* approved by § 5 of G.R.-no-8699 dated 22nd December/87

attached, is divided into five circles and each circle is placed in charge of one abkari Inspector. These officers are placed under some one or other of the Assistant and Deputy Collectors, who check their diaries and report to the Collector the result of the same and the actions taken by them thereon. In accordance with the Government orders Mamlatdars, Mahalkaris and Chief Constables are, also to inspect each shop in their charges at least once in six months. Village officers, too are made to realise their responsibility

× This office vernacular circulars No. dated 26

the matter of the supervision of all opium, ganja, abkari shops and the detection of illicit practice. In this they are required to visit all the shops in their villages at least once a month.

The enclosed table shows the progress in the detective work: ——

offences detected ~~by~~ during the year ending 30th June 1891						
By the	Illicit			Breaches of license conditions by farmers and shop-keepers	other offences	Total
	Distillation	Importation	Possession			
1	2	3	4	5	6	7
Abkari Inspectors	1	1	1	——	——	3
Police and other departments	2	8	15	2	5	32
Farmer's private detectives	1	——	——	——	——	1
Total	4	9	16	2	5	36

Last year (89-90)
the total number of case
detected was 28, five of
which were detected by
Abkari officers, and 16
by Police and other Depart
ments. This year the cases
detected by the Abkari In
spectors is only 3 and show
a comparative want of exercise
on the part of these five
officers though they are allowed
24 Police men between them
to help in detective work.
This inspection work and
the work connected with the
supervision of the operation
of the abkari farmers and
shop-keepers, are however, satis
factory. The cases detected
by the Police and other
Departments show an increase

of 16 ones is satisfactory.

The opening of the Railway in 1888 from Belgaum & Dharwar to Goa was followed by a great increase in the number of prosecutions for smuggling country-spirit from Portuguese territory. The number of cases for each of the last five years is as follows: —

1886	2
1887	1
1888	38
1889	9
1890	5

Mr. Muir was convinced that the law was broke through ignorance on the part of the smugglers and he took steps to notify* widely the provisions of the law.

* Notification dated 11th December 1888

The object, it will be seen, from the gradual decrease year by year in the number of cases of the kind is thus gained, to a

great extent.

20. The Divisional Forest officer's report for 1890-91 is most satisfactory. Forest-operations have sides been extended, and the Department has been most successful in excluding fires. Better financial results have been attained. A large quantity of fuel has again this year been supplied to the Railway Company.

The Commissioner sanctioned free grants* of timber in eleven cases to indigent cultivators whose houses had been burnt down

* Rs 184-15-11 in all.

Government were also pleased to sanction free grant of timber to the × Rs 250 Chapel at Kakeri in the Khanapur taluka.

During the year G. R. No: 650 of 26th January 1891 was passed defining the relations between the Revenue and Forest Departments and laying more distinct responsibily on the Revenue Department than was the practice hitherto.

Too short a time has elapsed for comment to be usefully made on the results of the change.

of the year a propos
of the Forest Settlemen
officer for the revision
the forest settlement in
the Belgaum and Chik
talukas was submitted
Mr. Muir with his remar
thereon. Final orders o
Government are awaite

It is proposed
bring into force the
new grazing rules sanct
in G. R. No. 3595 dated 23
May 1890, from 1st August
next. Owing to the
increased rates the rul
have caused considerab
dissatisfaction among the

people. It is too early to form a decided opinion as yet, but from personal enquiries I made into a few petitions, I cannot say I think the people have much real cause to complain.

21 Income Tax.

The tax is no doubt unpopular; but year after year the feeling of strangeness and novelty is wearing off and its unpopularity is fast disappearing under the influence of custom.

I have nothing fresh to add to

account given by Mr. Muir of the steps taken in the District to ensure that the yearly revision the assessment-lists comprehensive and thorough.

I submitted my report for the year 1870-9. on 11th July. With reference thereto I need, here, only refer briefly to the general results. The assessments were made and also supervised, again, this year, in the manner approved of by Government.

I give below a comparative statement (under Part II) for the two y...

Year	Original assessment		Final demand	
	Number of persons	Amount Rs	Number of persons	Amount Rs
89-90	1,742	37,620	1734	37,440
90-91	1732	38,645	1716	38198
Result	- 10	+ 1025	- 18	+ 758

The original assessment and the final demand (for 90/91) are, it will be noticed, higher than those for the previous year. There is not much difference in the number of assessees of both the years.

A slight reduction effected on appeal on the several classes is noticeable; being Rs 447 against Rs 265 for 1889-90

there was a possible
overassessment by the
assessing officers acting
on the repeated remark
made by Mr Muir
the last few years' reports
that a tendency towards
a decrease in the higher
classes and a crowding of
the lowest class of all was
distinctly at work.

The total final
demand for the year under
report is Rs 38900 against
Rs 37926 for 89-90 — showing
an increase of Rs 974. The
whole amount was, again
this year as last, duly
realized during the year

Rs 10 the ~~Rs~~ only penalty was also recovered.

The revised assessment for next year (91-92) amounts to Rs 39133 5 0. There is an increase of Rs 233-5-0 on the present year's final demand.

22 There is no Minor's estate in my charge.

23 The (revenue) village officers may be said to be fairly effecent. The percentages punished during the last three years, are as follows: ——

88/89 ——— 7·98
89/90 ——— 6 45
90/91 ——— 9-0

Total Number	Of whom punished by		
	Fine	Dismissal	Suspension
1894	164	2	5

The Patil (Paras-
ram Apana) of Konj-
Nandgad in Khanapur tal-
was convicted of furnish-
ing false information, an
offence under § 177 I. P. Code.
He was dismissed and
declared incapable of serving
Government again in any
capacity (G. R. — rev — No. 3348
of 14th May 1891).

The Kulkarni
(Narso Subrao) of Jigade
(Sampgaon) was dismissed
for grossly neglecting the

duty of abetting & the safety of Government owed in his village, and deliberately reporting to the Mamlatdar that no cuttings had taken place, when he knew that such was not the case. The Kulkarni's dismissal was sanctioned by G.R – rev – No. 4294 dated 24th June 1891.

The following gives information regarding suspensions: —

(a) The Patil of Arlimatti (Gokak) for neglecting to credit Govt dues into the Treasury.

(b) The Kulkarni of Korvikop (Sampgaon)

being implicated in a criminal case.

(c) The Kulkarni Pattikal (Sampgaon) for entering false names in public documents.

(d) Do Mulikatte (Belgaum) for neglecting to take proper care of public papers.

(e) Do Dhamn and Kókati (Belgaum) for neglecting to send permit fees, recovered, to the Forest Department.

As regards the progress made in completing the 63 Vatan Registers which had to be disposed of, I am glad to state that

on 1st July 1891 there
remained only four Patilki
Vatan Registers to be
completed. Of these two
are of the Sampgaon taluka
and 2 of the Khanapur taluka,
both of the 1st Assistant
Collector's charge. The work
in the other talukas has
been completed — as
regards the Kulkarniki
Registers and the Patilki
Registers in the other charges.
This reflects credit on the
activity of the Assistants.

Eight Vatan Registers
appeals were pending on
1st July 1890. Twenty-eight
were received during the

year Nineteen appeals were disposed of by Mr. Rees and myself. There are 17 now pending.

24 The Anzur Account office and Record Room were examined by Mr Rees between 13th and 21st October 1890. No errors of sufficient importance to record came to light; and consequently no Memo of errors was made out.

The books in the Collector's library and in those of my Assistants and Deputies, and the District Superintendent of Police have been duly cato.

~~loaned~~ They are forth-
coming and in good
condition

(1st Assistant Collector's
office). Mr. Muir stated
in the last year's ad-
ministration report that
he had written to Mr.
Hervey for any explanation
that he might have to
offer for the books missing,
but had not then received
his reply. Mr. Hervey
replied thereafter that he
was unable to account for
the books that were missing,
but promised to make good
some of the books
ingly

of Nairne's Hand Book. but
learnt that it was one
of print. So he sent to
the 1st Assistant Collector
money sufficient to buy
the book and certain memo
Acts. Mr. Muir called
upon the 1st Assistant Coll.
at the close of March fo
to furnish him (Mr. Muir
with a further report on
the 1st Assistant Collector's
return to Head-quarters f
the rains. This further
report is still awaited
(2nd Assistant
Collector's office). Mr. Muir
wrote as follows in the
last years administration
report: ——

"A number of books
"were damaged by white
"ants, while the Assistant
"was absent on tour. I
"am enquiring into the
"matter; and hope shortly
"to be in a position to
"report to you about it".
Mr Muir submitted to you
this promised report in
his letter No 4272 of 11th
August 1890, and you
were good enough to accord
in your letter No 3149 dated
21st idem, sanction to strike
off some five books from
the list of books in
the Library of the 2nd
Assistant Collector's office.

this subject, Mr Muir had
asked the Executive Engr
to take steps to protect
all cupboards &c by
stone-paved floors, iron-
water-holders or other
efficient contrivance. Mr.
Muir thereafter on 22nd
September 1890, submitted
you a rough estimate
framed by the Executive
Engineer (Rs 1499) to lay
down cement concrete floor
and asked you to move
Government to sanction
this estimate. Later on
in November, the Executive
Engineer recommended a
trial of asphalt for
flooring; and framed a

estimate for Rs 1681. This was sanctioned by Govt in the Public works Departt in their Resolution No: 252-C.W-873 of 26th May 1891. The work has not yet been begun.

In the administration report for 1888-89 Mr. Muir gave some account of the steps taken by him to popularise the paper currency.

Six years ago when he came to this District he found that no currency notes were, with rare exception, to be had at the Mamlatdar's sub-Treasuries. The reason

given, was [illegible] there was
no demand for them. The
no Kamlatdar could ex-
plain how a demand was
to arise, if notes were not
kept available for issue

So he prescribed
a minimum number of
notes, of the lower denomi-
nation, to be invariably
kept in stock at all
sub-Treasuries; and he
took steps to ensure that
his orders were given effect
to.

The result has
been that a limited de-
mand for them has sprung
up every where. It

probable that in course of time this demand will increase. This more extended use of notes will in the opinion of Mr. Meuci distinctly benefit Government financially; and prove, too, to a great convenience to the public.

The system of transferring all subordinates periodically was adhered to during the year.

25 The amount of <u>general inspection</u> of certain kinds, performed by Mr. Meus and myself, personally and with the help of the Chiefs

Collectorate — total of			Of which were visited			Accounts examined			Records Examined			Ryots' receipt books examined		Boundary marks examined

A return of the (Appendix D) various places, at which Mr Muir and I camped, is enclosed, as well as a map of the District to illustrate our tour.

Mr Muir states thus in his notes handed over to me. "I have

"completed the inspection
work of the District —
"with the exception that
"the Chandgad Mahal has
"to be examined; a fort-
"night more to be put in in
"camp; and two camps
made in the Belgaum
"Taluka."

"Elsewhere I
have examined all Mam-
"latdars' offices ×
"and Mahalkaris; *
"and made at least three
"camps in each Taluka
"and spent at least a
"fortnight in each."

× for a week
* for half a week

It will be seen
that I have completed
what was left by Mr

Mr. Muir and I
examined the accounts and
records of at least 5
percent per taluka, of all
villages in the District. The
birth and death registers
of 77 villages were also
examined. We found them
well kept as a rule.

As regards the
holes adjoining boundary
marks, Mr. Muir says that
digging holes by hands
does still obtain here and
there in most villages;
but much less than used
to be the case. This
practice, now that the cul-
tivators know of the law,
will gradually die out

There are nine Sub-Registry offices in the District. All of them were examined by Mr. Muir before he went on furlough. The prescribed report was, in each case, made to the Inspector General of Registration.

27. The destruction of useless records at the Anzur and taluka offices has been carried out, as stated below: —

Offices	Revenue	Magisterial
Anzur		
Belgaum		
Chikodi		
Athni	1937-38	
Gokak		
Parasgad		
Sampgaon		
Khanapur		

In each case the latest year is shown up to which the records have been destroyed. The work is, it will be noticed well up to date.

28. This is the third year, in which the revised rates of the land revenue settlement have been levied throughout the District. The settlement has continued to work altogether satisfactorily.

Mr. Muir says on his notes handed over to me that as to the working of the revised rates, he would repeat what he

It would seem from para 18 above that the realizations of revenue were made without any difficulty. No remission proper was either asked for or granted. Only 35 notices were issued and prosecutions attached in only one case. These facts do not call for comment. They tell their own story.

The Imperial Census was taken on the night of 26th February 1891. The arrangements were all carried out satisfactorily in accordance with instructions

tions to time from the
Provincial Superintendent
of Census operations Bombay
(Mr. W. W. Drew). These
instructions commenced to
be issued from 21st May 1890.
The Assistants and Mam
latdars paid much and
careful attention to the rule
of testing and supervision
As the object of taking
census had been satisfa
ctorily explained to the
public in general by o
officers concerned, no oppo-
sition was met with; and
there was not a single
case, in which any pro
secution had to be insti
tuted. This time the ab

work being done at
the head-quarters of each
District instead of at
divisional centres as was
done in 1881. For this work
one Karkun from each taluka
has been drafted to the
abstraction office at Belgaum
under the Deputy Superinten-
dent of Census. Besides
these some eighty candidates
have been entertained for
the abstraction work. The
work itself, however, is most
unpopular and great
difficulty has been ex-
perienced in getting men
to stay, after they find
how hard the work

after the deduction of forest.

The total population in this District according to this census is 10,10,610; the figures for 1881 and 1872 being respectively 8.64014 and 9.38,700. It will be seen that the District, has more than recover from the Famine of 76/77.

The Department of Land Records and Agriculture was reorganized and the new system was introduced into this District for the first time in April last. The District has been divided into 24 circles, each served by an Agricultural Circle Inspector. This scheme has involved the reduction of 7 Bhag or general duty Karkuns from the taluk establishment. Mr. J. W. Francis has been appointed to be Divisional Inspector L.R. & A.

Sinton Division. These reduced
7 Thag Markers have been
given each a Circle Inspectors
place. The other Circle Inspectors
places have been filled up
by the Director L R & A. by
drafting men who were serving
in the Survey Department and
the Agricultural Department
in other Districts. The pay
of these men ranges from Rs 40
to 25 per month. In addition
to this they get a fixed
travelling allowance
per mon.

As to the Record and
office accommodation half the
records of the District Inspectors
office will be located in a
room in the detached office,
partly occupied by the District
Deputy Collector for the remaining
half and for the correcting
office, an additional room is
being constructed

29. The alienation settlements have been completed. The work of issuing sanads, containing the area and quit-rent according to survey is still in progress, as detailed below:—

Nature of settlement	Work done in 89-90		Work done in 90-91		Estimated balance of work remaining	
	Cases decided	Sanads issued	Cases decided	Sanads issued	Cases to be decided	Sanads to be Issued / Re-issued
